The quality brand

Select Quality restaurants adhere to a voluntary code prepared by the Fish Tourism and Marine Culture tourist area. The code guarantees to consumers and travellers that dishes on the menu marked Select Quality are made from fresh local fish, respecting the seasonal nature of fish and their reproductive cycles. Dishes favour oily fish and small catches, which fishing has less impact on the ecology of the sea.

Although not regulated by the code, Select Quality restaurateurs have generally entered into agreements with boats and pay them fair compensation throughout the year. So they support and participate in the balance of this precious food chain.

The gastronomic sector, therefore, creates the vital link between producers and consumers, in many cases recalling cuisine traditions, thus taking the responsibility to guard them and revive them.

In this way the Select Quality restaurants offer the opportunity to participate in the life of the sea in Sicily.
